

By the Lord Lieutenant and Councill.

OR MONDE.

Hereas we are informed that great apprehensions of feares doe daily arise in the mindes of His Majesties Roman Catholique Subjects residing in the Quarters designed for His Majesties Protestant Subjects, occasioned by the advance of some forces out of the North into the said Quarters, and the Garrisoning of them there, and the expectation of further forces to come out of England, which feares are likewise fomented and increased in them by turbulent and ill affected persons, wherein if His Majesties said Subjects doe not receive timely satisfaction, suddaine and inevitable destruction must fall upon the said Quarters, we therefore thinke fit for the preventing of such inconveniences to publish and declare, and we doe by this Our proclamation publish and declare, that we will to the uttermost of Our power, protect and defend in their persons and estates, all and every His Majesties said Subjects, and all others whom we shall hereafter thinke fit to licence to come and reside in the said Quarters, from

the said forces and all others, and that none of His Majesties said Subjects shall be pillaged on paine of death to be inflicted on such who shall so pillage contrary to this Our proclamation, And we doe further declare that this proclamation is to continue and be of force for and untill the tenth day of June next ensuing, And that if we may not preserve them beyond that time, that they shall have timely notice thereof and shall have free liberty to depart with their goods whither they shall thinke fit, without any let or molestation, And for the better observance hereof, we doe will and require all and every the Governours, Officers, Commanders and Soldiers under Our Command, that they nor any of them doe presume upon paine of death, to offer any violence injury or wrong unto any of the persons aforesaid, and that they to the uttermost of their power protect and defend them from all violence or injury which shall be offered unto them, to the end they may be encouraged to goe on in their Tillage and other works of Husbandry, whereby they may be the better enabled to contribute towards the maintenance of His Majesties Army.
